

FEBRUARY 2014
FELLOWSHIP PROGRAMME
CALL
WINNERS

Clinical Short-Term Fellowships

Dr. Ahmed ELSOLIA – STF 161-2014

Provenance Institute:

Mansoura University Hospitals - El Mansoura, El Dakahleya Governorate, Egypt

Receiving Institute:

Guy's & St Thomas Hospital, Department of Nephrology and Critical Care – London, United Kingdom

Research Title:

Critical Care Nephrology

Dr. Oussama HASSAN – STF 163-2014

Provenance Institute:

University of Balamand, Faculty of Medicine and Medical Sciences - Lebanon

Receiving Institute:

Barts Health NHS Trust - London, United Kingdom

Research Title:

Transplant and Dialysis

Research Short-Term Fellowships

Dr. Zhiyong CHEN – STF 177-2014

Provenance Institute:

INSERM UMR, Tenon Hospital – Paris, France

Receiving Institute:

Department of Nephrology – Utrecht, The Netherlands

Research Title:

Characterization of zebrafish proximal tubule endo-lysosomal system and establishment of proximal tubulopathy model

Research Long-Term Fellowships

Dr. Andreas KROMBICHLER – LTF 169-2014

Provenance Institute:

Medical University – Innsbruck, Austria

Receiving Institute:

Addenbrooke's Hospital, Cambridge University Hospital - Cambridge, United Kingdom

Research Title:

The human microbiome in antineutrophil-cytoplasmic antibody associated vasculitis

Dr. Jean-Paul DECUYPERE – LTF 171-2014

Provenance Institute:

Laboratory of Abdominal Transplant Surgery Department of Immunology and Microbiology – Leuven, Belgium

Receiving Institute:

MRC Centre for Transplantation NIHR Biomedical Research Centre - Transplant Theme King's College – London, United Kingdom

Research Title:

A novel interrelation between autophagy and the complement system: role in renal ischemia-reperfusion injury

Dr. Francisco Jesus ARJONA MADUENO – LTF 175-2014

Provenance Institute:

Department of Physiology, Radboud Institute for Molecular Life Sciences (RIMLS), Radboud University Medical Center (Radboudumc) – Nijmegen, The Netherlands

Receiving Institute:

Centre for Nephrology UCL Medical School – London, United Kingdom

Research Title:

Functionomics of new players underlying renal magnesium reabsorption

Dr. Audrey DESGRANGE – LTF 177-2014

Provenance Institute:

Laboratoire de Biologie du Développement – Paris, France

Receiving Institute:

Biocenter Oulu Lab of Developmental Biology, Oulu University - Oulu, Finland

Research Title:

Function of the Renal Cysts and Diabetes gene HNF1B during kidney morphogenesis: an integrated molecular and cellular approach
