_We have began this year a registry of vascular access _____

Fellowship programs or educational opportunities for young doctors (if any)

A grant for short duration stage gifted with 6000 euros. The characteristics and conditions are in our web _____

Short description of the Society (preferably no more than 2000 characters)

Spanish Dialysis foundation was born in 2003 from Spanis Dialysis and Transplant Society to promote formation and continous education of nephrologist by means of courses, meetings and conferences. We have done every year a course of vascular acces, every 2 years a course of Hyperparathyroidism and bone mineral disorders and in 1 case a course on diabetic nephropathy.

The other interest of foundation is to ameliorate the knowledge of patients about their disease and how to prevent it and at the same time to potentiate all the works that stimulate the participation of renal patients in the society. We have painters, writers and photographer and we try to show, by means of our web, all these works to the other patients and to all the people.
